Secure
Screener
A simple and secure content screening solution

Secure Screener is the perfect way to share videos with award committees, journalists, critics, distributors and other stakeholders. Deliver all your titles from ONE platform, and let your recipients review them through on an online portal via browser, smartphone or tablet.

With Secure Screener, you get to decide exactly who has access to your content, for how long, and how many people they can share it with. What's more, you can send and receive as many titles at a time as you need, and even custom package your videos with the solution's innovative cover art and branding options. All this, with 24x7 industry-leading customer service and ironclad security.

Key
Features
